

Dota 2 Survey

Here we attach the survey used in our research study. It was divided in three sections: General Information, Dota 2 Information and Personality Questions.

GENERAL INFORMATION This section was used to ask for general information, as well as some private data that, in our opinion, could be inferred through gaming information.

DOTA 2 INFORMATION In this section we asked information about Dota 2 and personal negative experiences. We used some of the answers of this section to evaluate the players' attention and coherence.

PERSONALITY QUESTIONS Ten short personality questions were asked in this section. We used the test studied in [45] in the english version. We asked such questions because we think that personality and play-style are strongly related.
